

TRAFFIC MANAGEMENT

PARKING / ROAD CLOSURES

We'll propose an improved plan for road closures and parking restrictions, based on what we learned from 2018.

Main Aims:

Use of Road Closure signage, resident access permits scheme and stewards to deter non-resident vehicles parking in streets around the event

Time-limited road closure on Gunnersbury Lane (North & South from to North Circular to Bollo Road) to allow for safe egress.

Key changes:

Gunnersbury Drive added to the road closure/ resident access scheme

Resident Access Permits distributed earlier - by 5th July 2019

Link on community website (from next month) to request additional permits

Stewarding improved - earlier start to stewarding operation, more back-ups, more robust stewards in key areas and better supervision and communication

Traffic plans published on community website
